Office Action Summary

Receipt is acknowledged of amendment of 6/24/02.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 21-42 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 3.

This application contains claims 21-42 drawn to an invention nonelected with traverse in Paper No. 3. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There no longer is stimulation, so "said stimulation" in claim 1 has no antecedent.

Claims 1-8, 13, 14, 16, 17-20 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Gresser et al, WO 93117704.

The rejection of record is maintained,

Applicant argues Gresser, providing a biodegradable form, is in contrast to the instant formulation consisting essentially of an anabolic agent—Examiner finds a

Art Unit: 1616

formulation is claimed; the consisting essentially, referring to the active agent of the formulation being an anabolic agent. Gresser so demonstrates this functionality.

Claims 1-13, 16, 17<sup>19</sup> and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Lewis--5288496.

The rejection of record is maintained.

As shown above (Gresser rejection), the instant claim language does not preclude adjuvant and other non active materials, "consisting of" would resolve this problem in applicants favor.

Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lewis 5288496 and Lee et al 5022554.

The rejection of record is maintained.

Applicant's arguments filed 6/24/02 have been fully considered but they are not persuasive. Applicant's arguments have been addressed: in essence; absent the language "consisting of" the first formulation is seen as inclusive of non-active components.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 1616

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
